I went to San Francisco this past week and presented my work project to a group of about 45 people. I did a good job thanks a lot to what I have learned in this course. I believe by the time Svetlana Papazov finishes with us we will ALL be doing an AWESOME job in public speaking!

-Kay Jarrell

I'm just back from directing a conference, Mountainside Marketing, and I gave the opening keynote there. I used what I'm learning in Present for Success when I delivered my keynote and it was the best talk I've ever done!!!

-Edie Mahoney-Melson

Present for Success is a great program that allowed me to experience boldness and courage to overcome the fear of public speaking. Since taking Present for Success I have become more confident to speak in front of others, and more precise in the message I want to convey! I definitely recommend it!

-Lacey Self

I completed my talk and presented it today to a group of business leaders to get involved in child welfare. I did follow Svetlana Papazov's instructions. When I shared the talk, I realized that there were people crying by the end during the call to action. It was almost contagious and nearly half the room was tearful during the Q and A. Wow! It was powerful to watch unfold and I've never had anyone respond this way before to a talk I've given.

-Lisa Welter

Thank you so much for being the best teacher ever. I love listening to you and learned a lot!

-Paula Kelley-Kittrell

The Present for Success program boosted my confidence and my bottom line. It also equipped me with the right strategy for presenting my business ideas on and offline.
